

FROHMAN HEADS NEWS NEW ROSENTHAL JURY STARTS FIRST WITH SCREEPS

NOT SPRING, APR. 15.—Assistant District Attorney J. R. Rubin and Detective Stewart of New York City left here today with Mrs. Schepers, who is wanted in connection with the Rosenthal murder case.

The party left upon a St. Louis, Mo., and Southern train not further than this Assistant District Attorney Rubin would not permit the case to be taken to New York. Acting under orders from District Attorney Whitman he took every precaution to cover his trail.

FROHMAN HEADS CORONER'S JURY IN ROSENTHAL CASE

NEW YORK, Apr. 15.—After waiting a jury composed of bankers, brokers, the trial manager and other managers, Coroner Feltus today adjourned the inquest into the death of Herman Rosenthal until August 22, at 10 a. m., at the request of Assistant District Attorney Rubin, who said that the whole matter was now before the grand jury. The jury selected consisted of the following:

Daniel Frohman, foreman; Arthur Heine, brother of F. Augustus Heine; Clinton Graham, John Farson, Jr., banker; George W. Graham, Arthur T. Bowen, banker; W. L. Ferrell, manager of the New York Stock Exchange; W. C. Heine, banker; Gordon Hartman, Henry Bury, P. W. Dwyer and J. W. Farrington.

To save their "reputation" has cost Becker overhead.

This decision was reached because of the mass of evidence that District Attorney Whitman has heaped up against the former "cancer man" and his associates.

Big Anti-Craft Mass Meeting. The determination of the coroner to rid the police force of graft and blackmail was given further expression last night at a mass meeting at the Cooper Union.

When they appointed a "vigilance committee" of prominent men and women, they said that the public officers now engaged in exposing "the tremendous influence of the police with organized crime" do their duty.

With 4,000 people within the auditorium and hundreds standing up, thousands more blocked the streets and clamored for admittance, and there was no mistaking the seriousness which pervaded the gathering.

The members of the committee, Eugene McCarthy, Jacob H. Schiff, Eugene A. Phillips, Henry M. Schick, Alvin Karpis, F. S. Tomlin, Raymond V. Lagergren, Mrs. Charles H. Smith and George H. Agnew.

The speakers included District Attorney C. A. Whitman, Dr. Ignace Schick, and Assistant District Attorney Rubin.

Even to be indicted.

The grand jury today completed its work in the investigation of the assassination of Rosenthal. A blanket indictment was drawn up containing the names of seven men charged with the murder of the gambler, according to the indictment.

In preparation for the trial, the grand jury today indicted seven men charged with the murder of the gambler, according to the indictment.

The grand jury today indicted seven men charged with the murder of the gambler, according to the indictment.

Fine tobacco, skillfully blended—that's the source of the rare, natural tobacco flavor which has made **FATIMA CIGARETTES** famous.

Liggett & Myers Tobacco Co.

Orders Rosenthal said, "Why no," he said, "beat up. I want him murdered, shot. His throat cut. Any way that will take him off the earth." He went further, he said if anybody will murder Rosenthal, he will give them \$500 to them. He will take care of that. "And if these men downtown don't accept the job, I'll tell them that out on the river they will be left on my rounds up, I will find where they hang out, and I will take them very easy and I will send them up the river for carrying concealed weapons."

deceived **FIRST**, and the man who sold this notice and pay for every two and pay all the expenses in doing in this store.

Out of more than twelve that sold this is the only complaint, and for this was honest enough to be.

We have sold more shirts to stores in the country—and we average price, we are ready to make than the same shirts could be bought.

Where you bet the hat

to sold us these shirts will pay for
good shirts we are prepared to give
so, for every poor shirt ever bought
usand dozen shirts we have recent
except that from a customer in Mer
his name.

BLUES AGAIN BEATEN BACK

HEADQUARTERS BLUE ARMY, Red-
dington, Ct., Aug. 14.—Another victory
was recorded for the Red army of inva-

tion today in the campaign to capture New York city, and the Blue army of defense was forced back to the point, where the final stand will be made to-morrow. The Blue army has retreated fifteen miles from its original battle line. Its base of supplies has been left wholly unprotected and the Red army is within striking distance of the New Haven railroad, giving the invaders a direct route to New York.

The news of War Stimson reached here early today and saw the end of the fighting that began at dawn and resulted in a retreat for the Blue army.

Brigadier General Thomas H. Perry, Superintendent of the West Point Military Academy, was another interested observer. He was seated on a command pillbox under cover of artillery and with cavalry protecting the harriding flanks,

a logical accompaniment of the rapid motor Delivery Cars, made at Ardmore, which city merchants formerly had in build up profitable trade in sections out

who have adopted the Autocar Delivery route a gratifying increase in their business. The delivery of purchased goods seems to be a boon to their patrons.

The Autocar Company, of Ardmore, Pa., credits its business houses large and small, for their patronage, especially in suburban work and reaches towns and isolated resorts to handle.

It is now practicable to extend their delivery area to a radius of 30 miles, serving their old customers and reaching new ones. This is due to the fact which is developing with the rapid increase in the number of stores which Autocar can serve within a 30-mile radius which Autocar

Athletics Chances Are Now Slim

Continued from First Page.
The Athletics were figured to have a slim chance of winning the pennant. In fact, the Red Sox were seen more likely to win two-thirds of the games they still have to play than Connie Mack's men are to take a similar proportion.

How it is figured.
The Athletics were figured to have a slim chance of winning the pennant. In fact, the Red Sox were seen more likely to win two-thirds of the games they still have to play than Connie Mack's men are to take a similar proportion.

WHY THE RED SOX HAVE WON THE FLAG

THE RED SOX, today, hold the American League with 55 games won, 34 lost and a percentage of .614.

The Philadelphia Athletics have counted Washington from second place and today had the Senators by a fraction of less than .002 points.

BRANNIGAN AND WALSH "DRAW"

BY JACK CONWAY.
M. MAFITT "DRAW" FLAHERTY has a great record. Since his last defeat, admirers—no referee and no manager—have never been feeling enough or powerful with sufficient reason to sue him to make him with the referee in the past.

Flaaherty has given but two decisions in his career. He declared Eddie McInerney the winner over M. McInerney, while he declared that "Porty" Flynn had a shade on Jim Barry in their recent pugilistic face.

Yachts at Newport Race for King's Cup

NEWPORT, R. I., Aug. 15.—The yacht race which began today for the new cup offered to the New York Yacht Club by His Majesty George V.

The fourth race for the Astor cup yesterday sailed on the birthday of a new king. John A. Sweeney was the most exciting contest by the schooner Eleana, owned by Morton W. Plant of New London, Conn., and sailed by William Smith of Groton, Conn.

PLAN GAMES AT ATHENS IN 1914

If the necessary funds are forthcoming America will be represented at the big international meet at Athens, Greece, in 1914. It has no Olympic significance, but all the same Committee James A. Sullivan is anxious to have the Stars and Stripes wave again in the vast marble inclosure and bring some new honors to Uncle Sam.

No matter how much money is accrued by popular subscription, there is very much to be done in the great game of athletics.

The Athletics were figured to have a slim chance of winning the pennant. In fact, the Red Sox were seen more likely to win two-thirds of the games they still have to play than Connie Mack's men are to take a similar proportion.

The Greatest Camping Grove Around Boston
IS WEST ROXBURY HIGHLANDS
 Located right in the city itself.
 3 Lines of Boston Elevated Cars and 25 Fare.
Swell Lots \$83 to \$185. \$10 SECURES ANY LOT
HOW TO GET IT
 Extra large brand new tents sectioned off into two, three and four good rooms will be given, absolutely free, to every purchaser.
 These tents are sturdy, light, and can be set up in a few minutes. They are made of heavy canvas, and are guaranteed to last for years. They are also very comfortable, and are well adapted for camping in the city.
 The land is located in West Roxbury Highlands, and is within easy reach of the city by the elevated cars. The fare is only 25 cents, and the land is sold for \$83 to \$185. This is a great opportunity for anyone who wants to own a piece of land in the city.
 For more information, apply to the American APARTMENT ADS, 200 Huntington Avenue, Boston.

It Is Easy to Talk Free Trade Nonsense

Much Less Easy to Understand That Which You Discuss.

Copyright, 1912, by American Journal Editors.

A newspaper announces that it "will make tariff robbery plain to readers." Following this glittering promise, the newspaper proceeds to demonstrate the fact that it knows very little about the tariff and about the questions involved in tariff discussion.

The people are robbed through the tariff in the United States, of course. In the United States the people are robbed IN EVERY CONCEIVABLE WAY.

They are robbed by corporations that fix prices and thus levy taxes. They are robbed by political bosses and political machines. They are robbed by railroads, street car lines, express companies. They are robbed by the various trusts—beef, sugar, coal and the others.

They are robbed by the tariff merely among many forms of robbery.

It is important for the people of this country to understand that the tariff, which has been dishonestly manipulated, which has protected trusts and made monopoly possible in some lines, HAS ALSO A GREAT DEAL TO DO WITH THE PROSPERITY OF THIS ENTIRE NATION. The well-meaning but ignorant newspaper, if it could avoid ignorant prejudice against all tariff, would endeavor to stability in every line of labor, manufacturing and business AND GREATLY INJURE THIS COUNTRY.

Here is a statement from the newspaper in question. It is a MISSTATEMENT of facts:

"Eleven yards of fancy wash fabric in this dress cost to manufacture in the United States \$1.06 and in England \$1.11. The eleven yards retail in England for \$1.87 and in the United States for \$2.75. WHY? Because the Payne-Aldrich tariff tax amounts to 66 cents. Under the Dingley law it was 45 cents." This sounds convincing—if you don't happen to know anything about conditions in England and in America.

In this country we can MANUFACTURE 11 yards of a certain goods for \$1.06.

In England, assuming the statement quoted to be accurate, it costs \$1.11 to manufacture 11 yards of goods.

In England the 11 yards are sold at retail for \$1.87, a profit above the manufacturing cost of only 76 cents, and in America the same goods are sold at retail for \$2.75, a profit above the cost of manufacturing of \$1.69.

The newspaper which prints these so-called facts and figures absolutely misrepresents conditions, but, of course, without knowing. The trouble with many of our teachers is that they don't understand that which they undertake to teach.

It is true that goods are very often sold at retail in this country for a profit twice as great as the profit charged in England or in other countries.

We shall proceed to explain to our foolish newspaper friend some causes of the difference in profit.

In the first place, Mr. Editor, the American retail merchant advertises in your newspaper and others, and spends each year at a low estimate a hundred thousand dollars where the retailer in England does not spend fifty thousand dollars, and probably not twenty thousand dollars.

Therefore, to begin with, a very nice slice of the extra profit which you blame on the tariff really goes into your pocket. Think about that for a little while.

In the second place, the retailer in America, if he is a successful, up-to-date man, has a store that represents an investment and, therefore, paid charges infinitely greater than the same charges borne by the English retailer. This means that American mechanics have put into their pockets for the building of a fine, new store a large part of the money involved.

All clerks are paid too little in all cases—there is no doubt about that.

But the American retailer pays those that work in his store, at the lowest estimate, twice as much as the English retailer pays to his clerks. Therefore, the American clerk in the dry goods store gets part of that larger profit which you are pleased to charge exclusively to the tariff.

The American merchant is not content to work all his life for very little. He may become a bankrupt in the keen competition. If, not he gets rich and his fortune quickly made represents part of that larger price which you attribute entirely to the tariff.

It is true that if we had no tariff the retail merchant would be compelled to accept a very much smaller profit, and he would be compelled to cut his advertising space in the newspaper that criticizes him, and that newspaper would be compelled to cut its advertising rate.

Without a tariff the merchants would not be able to make their fortunes quickly and build the great new stores which dot this country.

Without the tariff the English could send their goods, manufactured and unmanufactured, into this country freely, and our men would have to go out of business or cut the wages of their employes in two.

It is true that if we had no tariff many interesting things might happen.

The Scotch could send shiploads of potatoes to this country and sell them at very low prices—that would be agreeable for the buyers in the city and PUT THE FARMERS OUT OF BUSINESS.

And the clothing makers in Germany and Austria and England and China could send their ready-made clothing to this country and sell the clothing for half, which would be very nice for the farmers of America, but which would put tens of thousands of American workers in the city out of business.

If we had no tariff the Frenchmen, the Germans, the Greeks could

CONTINUED IN LAST TWO COLUMNS.

Captains All

Look at the captains sailing their ships. Built out of matches, paper and clips! You couldn't get greater excitement up if the race were for the America's Cup. Each watches the course with an anxious eye. Till his ship goes down or comes safely in.

We pause for a moment upon our way To watch the kids at their earnest play. Then turn to the daily mail and strife. As we explain our bark on the sea of life: For it lies with each soul to lose or win—If his ship goes down or his ship comes in.

Wouldn't It Make You Mad?—

Copyright, 1912, by the International News Service.

AFTER YOU HAD BEEN SWELLING AROUND FOR YEARS, BRAGGING TO YOUR NEIGHBORS, AS ABOVE—

"IF YOUR NEIGHBORS GOT THE GRAND LAUGH ON YOU?—WOULDN'T IT GROWCH YOU?"

It Is Easy to Talk Free Trade Nonsense

CONTINUED FROM FIRST TWO COLUMNS.

send their champagnes and their other wines in free of duty, which would be pleasant for our saloon keepers and restaurant keepers, but would put the California and other American vineyards out of business.

And so on, dear, ignorant newspaper editor, all down the list.

If you had free trade you would have FREE COMPETITION IN LABOR, and the manufacturer and employer, able to grind his employes down to the lowest wages, would get the markets.

Americans big and little are in a hurry. They live in a hurry, they travel in a hurry, make money in a hurry, die in a hurry, get rich in a hurry. The tariff helps along the hurry and makes the pace faster.

The tariff, like everything else in our country, is full of vices, mistakes and extortion. But we must do to the tariff what we would do to a sick friend—cure it, not kill it.

The tariff compels Americans TO BUY OF AMERICANS. The tariff compels the shirt-waist maker in the city to buy potatoes of the AMERICAN farmer.

The tariff compels the American farmer to buy his wife's shirt-waist of the AMERICAN shirt-waist maker.

If you had a family of ninety millions of boys and girls you would say to them, "I want you boys and girls to live together like brothers. I want you to buy your goods OF EACH OTHER whenever you can, even if you have to pay a little more I WANT YOU TO KEEP THE MONEY IN THE FAMILY AND MAKE THE FAMILY PROSPEROUS."

The Government of the United States is a father with a family of ninety millions of sons and daughters. And that Government father says to the great nation of sons and daughters, "I want you to buy of each other even at a sacrifice. I want you to help your brother build up his business by paying more while it is weak. And I want you to keep him honest and make him deal fairly by you when he becomes strong."

This is the greatest free trade country in the world, for we have free trade from ocean to ocean and from Canada to Mexico.

And it is the greatest and most prosperous country in the world, BECAUSE WE HAVE TRADED AMONG OURSELVES LIKE BROTHERS AND HELPED EACH OTHER LIKE BROTHERS, and have not simply tried to buy wherever we could at the cheapest rate regardless of the wages paid.

The New York newspaper means because goods are manufactured for 106 cents in the United States that cost 111 cents to manufacture in England.

Does our contemporary know why the United States is able to manufacture eleven yards of goods for five cents less than England can manufacture the same goods?

America can manufacture more cheaply than England and at the same time pay wages much higher than those paid by England BECAUSE TARIFF HAS ENCOURAGED AND REWARDED INTENSELY BRILLIANT MANUFACTURING IN THIS COUNTRY. The tariff has built prosperity, increased wages, raised the standard of living, and the better conditions have brought the most intelligent, most brilliant men of Europe to our country. And thus the more intelligent men with higher wages protected by the tariff have been able to manufacture more cheaply than Europe can manufacture. The owner of the newspaper which we criticize accumulated before he died twenty millions of dollars, and he died a young man, comparatively.

He earned and deserved every cent that he got, and many millions more. He rendered services to this country.

The country rewarded him well BECAUSE OF THE TARIFF, because when he came here he found himself in a country where merchants and mechanics and all others, including newspaper owners, lived on a high plane of profit.

He had his share, and a big share, of the prosperity that wise protection brings. Let his successors strive conservatively and cautiously to eliminate that which is unwisely in protection and in the tariff. Let them not foolishly and ignorantly seek to pull down the ladder on which they with this nation have climbed to prosperity.

Our American motto should be, free trade from ocean to ocean and from north to south in our country, and reciprocity with those of our neighbors that want it.

Elimination of protection where protection has bred monopoly.

But no free trade that means FREE COMPETITION OF LABOR; no free trade that means success for the man who gets the world's markets by paying his workmen least.

SONG OF THE FLY

By WILLIAM F. KIRK

BABY BYE,
There's a fly;
Let us swat him, you and I.
There he goes
On his toes
Tainting Baby's nose.

Baby Bye,
Watch that fly,
Watch him while he's crawling nigh.
On your guard,
Little pard!
Swat him good and hard.

Flies have feet,
Never neat,
Full of germs from yard and street.
Baby Bye,
He must die—
SWAT

THAT

FLY!
